

PECULIAR AFTER EFFECTS OF GRIP THIS YEAR

Leaves Kidneys in Weakened Condition.

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run down condition, particularly the kidneys which seem to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals often lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp-Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp-Root is a great kidney, liver and bladder remedy and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp-Root on receipt of ten cents, to every sufferer who requests it. A trial will convince anyone who may be in need of it. Regular size bottles 50c and \$1.00. For sale at all druggists. Be sure to mention this paper.

Readers Intelligent Jurors

Judge Harris of Fulton recently asked the circuit clerk of that county to aid as much as possible the newspapers in getting the facts concerning divorce cases filed there. He believes that publicity of this kind will have a tendency to minimize the number of divorce suits. Judge Harris also says that the man who has not enough intelligence to read the newspapers or want to read them is hardly qualified to act with intelligence on any kind of a case. A change of venue was asked from his court in a divorce suit which had been published in the papers. The court refused to grant the change stating the newspapers had published unbiased reports of the case and that this fact would not tend to make their readers prejudiced in the case.

Not Married

Dick Carter says he was not married as reported. He would have no objections to the charming young lady said to have become his spouse, but was not yet so fortunate. We make the correction that some of her other admirers may not believe themselves too late and also to clear Dick of any trouble he might have in sight with other young ladies he has professed a preference for. Also that the performance may still be open for Bro. Mitchell.

More Consolidation

The consolidated-school district idea seems to be growing. A resident of Missouri Township was in the city Wednesday discussing the matter of consolidating some districts in that vicinity. The county superintendent of schools went to Bynumville the latter part of the week to consult with residents of that neighborhood about calling a meeting to decide upon consolidation of a number of districts there and if the proper petition was signed, he intended calling the election as asked. The county superintendent predicts that within a year there will be twenty consolidated districts in Chariton county.

Wet

Carthage and Carterville in Jasper County, Mo. voted wet Thursday of last week. They have been without saloons for 4 years, the dries winning by 172, the same number being against them this time. Carterville went wet by 266. Women and girls worked at the polls from 7 a. m. to 6 p. m. and parades and bell ringing and singing etc. were constant, despite the cold, raw day. The wets were about as active with bands and arguments.

Why They Rejected It

The Decatur (Ill.) Herald shows why Quincy rejected the commission form of government. Decatur adopted it. Quincy in 1910 exceeded Decatur in population. Now it is three or four thousand behind. Decatur spends in public improvements in two years more than Quincy does in 10. The difference lies in the people. The Decatur people are progressive and the Quincy whigs reactionary.

Chillicothe's municipal light plant seems to be "getting across." The council has paid \$9000 and a \$10,000 bond issue which is not due until 1915 and had \$3000 left to invest in county warrants which will draw a fair rate of interest.

Chillicothe authorities found many people who needed clothing and fuel during the last cool spell. One family of ten lived in a house where there was a single bed and where there were holes large enough in the wall to permit the passage of a cat.

John H. Roberts, aged 74 years, died at Moberly Saturday after a short illness. Burial at Fairview fifteen miles out from Moberly. Decedent was a member of the G. A. R.

Samuel Crittendon arrived here Sunday for a short visit at the home of his uncle Judge H. C. Minter.

Don't Waste Road Work

In a statement given out February 11, Judge J. M. Lowe President of the National Old Trails Association, warns farmers against spring road work. He says:

"The tendency of the average farmer is to get out his plow, just before spring work opens, and fix the roads where they trouble him most. He works under a handicap because he hasn't the proper road making tools, but he works just the same and with some result. He heaps up a grade and drags the top of it level until in form and general appearance it is everything he desires as a temporary roadway.

The farmer means all right of course, but he is throwing away his labor, just the same. The spring and the fall are unpropitious seasons to establish loose earth grades. It might work with macadam or rock, but the heavy rains that come about Easter and again in June make a sticky paste out of the soft piles and finally wash away under the line fences.

The making of roads is one of the oldest of known arts. It was in a state of high perfection at the time of Julius Caesar. The ancient Romans knew practically as much about it then as we do now, for the people had been making highways since the prehistoric tree-dweller cut his way through the jungles with a stone hatchet. It was an axiom then as it is now with all scientific road builders that grades of dirt are not to be constructed when the ground is frozen, in the spring or fall.

There is a practical virtue in the farmers paying their road tax instead of attempting to "work it out" for it happens that the very time to do the work is when the farmer hasn't a minute to spare in the middle of the summer.

Judge Lowe is warning all supporters of the good road movement throughout the length of the proposed Old Trail route to help defeat the "pork barrel" legislation how under consideration. President Wilson, as well as all of the road association have declared themselves opposed to the bill.

Killed Two Wolves

W. F. Hamilton, Roy Shoop and William Shoop jr. killed two full grown wolves near Rothville last week. They trailed the animals, finally shooting one, the other escaping. They followed the second wolf however until they got it as well. There is a bounty of \$2.50 on each full grown wolf. It is reported that quite a few wolves have been seen in that vicinity but it is the first time anyone was able to kill one.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Sall's Catarrh Cure. Send for circulars, free. F. J. CLEMENT, & CO., Toledo, Ohio. Sold by Druggists. Take Sall's Catarrh Cure for catarrh.

Near Wreck

The Limited from the city to the station came near to being entirely ditched Friday afternoon on its return from a regular trip to meet No. 3. When in front of the Bank of Keytesville and running at about half speed it jumped the track and but for being bolstered up by the awning posts in front of the bank, it would have turned turtle and doubtless injured several passengers. As it was, the slender iron posts sustained the car until passengers could alight and the crew set the 45 degree incline on a perpendicular. The steam heating plant turned over on a commercial tourist and marked an eye and sprinkled him slightly with ashes not inspired by humility, and the front of the car was disfigured somewhat or how, but with this and the usual mushroom bosses always on hand on such occasions, no damage was done to the track, rolling stock or time table.

Prewitt-Paschen

P. F. Prewitt and Miss Mary W. Paschen of Salisbury were united in marriage Tuesday Feb. 2 at 6:30 o'clock by Squire Geo. Young at his residence. Mr. Prewitt is an industrious young farmer of south of Keytesville and Miss Paschen is the charming daughter of Mr. and Mrs. Richard Paschen of Salisbury.

Mr. and Mrs. Prewitt will reside 1-2 mile north of Rockford after March 1st.

Someone also said that a hustler never finds time to complain. Especially is this true if he is hustling for work but most people are hustling for a place to sit down. Hence the complaints.

An accident insurance man was making the rounds here Friday and convinced quite a few residents that their only chance of keeping even with the game of life was to take out a sick and accident policy in his company. Funny how weak and puny an agent of this kind can make a strong man feel right at the right moment.

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Baltimore, Md. — "I am more than glad to tell what Lydia E. Pinkham's Vegetable Compound did for me. I suffered dreadful pains and was very irregular. I became alarmed and sent for Lydia E. Pinkham's Vegetable Compound. I took it regularly until I was without a cramp or pain and felt like another person, and it has now been six months since I took any medicine at all. I hope my little note will assist you in helping other women. I now feel perfectly well and in the best of health." — Mrs. AUGUST W. KOSNER, 1632 Hollins Street, Baltimore, Md.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

A BRONCHIAL COUGH

is wearing and dangerous because the inflamed, mucus-filled tubes interfere with breathing and the fresh air passes through that unhealthy tissue.

Probably no other remedy affords such prompt and permanent relief as Scott's Emulsion; it checks the cough, heals the linings of the throat and bronchial tubes and strengthens the lungs to avert tuberculosis. This point cannot be emphasized too strongly—that Scott's Emulsion has been suppressing bronchitis for forty years and will help you.

Be careful to avoid substitutes and insist on SCOTT'S. AT ANY DRUG STORE. 15-17
